

# CoreXchange®

Advanced Networking. Simplified.

## EXPERT ATTENTION AT EVERY LEVEL

### COREXCHANGE IS ABOUT THE CUSTOMER

At CoreXchange our [high-performance network](#), redundant power and [enterprise-class facilities](#) aren't the only reasons our customers remain our customers. CoreXchange customers get personal attention from our industry experts who help determine the best solution for each client from the moment of move-in and installation, continuing through the tenure of the relationship.

*"Upon our initial migration, CoreXchange's network team helped configure our network and firewall settings to have more redundancy than we ever had before... Their team was extremely helpful and knowledgeable."* John Tadlock, [Tavoca Automated Reminders](#)

CoreXchange has expertise in supporting customers with critical applications that include **MEDICAL, FINANCIAL, OIL & GAS, ENERGY AND CALL CENTERS.**

### MEET TEAM LEADER ANTHONY YARBROUGH

*"Anthony and his team were very helpful and outgoing—you have a nice operations and one to be proud of. Everyone went the extra mile to get us up and operational."* Dale Williams, Karum

Anthony Yarbrough is Network Operations Center Director at CoreXchange in charge of installations. Anthony has twelve years experience in the IT industry, ten of them in Internet hosting and colocation. While the move-in process can be fraught with unforeseen challenges, Anthony is the one CoreXchange staff member about whom we receive the greatest number of positively glowing comments. His professionalism, knowledge and ability to solve problems combined with a true desire for a positive outcome for his customer make him a valuable asset to the CoreXchange service team.

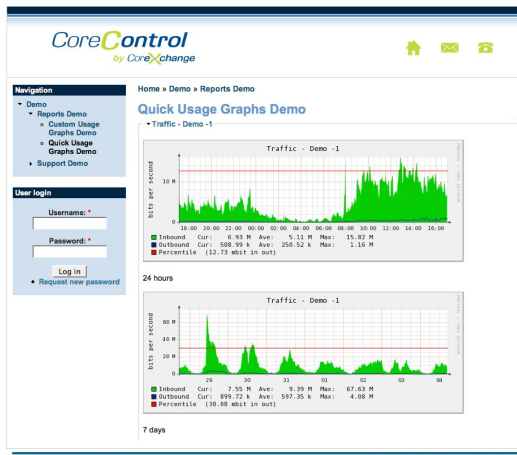

Thank you Anthony for exceeding the expectations of our clients and helping establishing CoreXchange as the fastest growing provider of IT and network infrastructure services.

### CORECONTROL CUSTOMER PORTAL
