

COREAVAILABILITY FOR BUSINESS CONTINUITY, DISASTER RECOVERY, AND KEEPING CHENIERE ONE STEP AHEAD THIS HURRICANE SEASON

COREAVAILABILITY SOLUTIONS GO BEYOND THE PROTECTION OF YOUR DATA

Disaster recovery is no longer simply about the protection of data. Businesses today must have a plan to address their network and IT infrastructure needs and also provide space for employees to continue working should weather or other disaster make their office no longer a safe place to operate. At CoreXchange we get you back online and back in business.

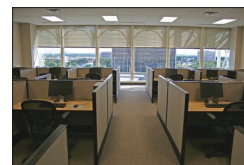

PROTECT YOUR BUSINESS AGAINST DISASTER

- | | |
|--------------------------|-------------------------------|
| Weather Disaster | Network or Power Outage |
| Fire | Strike or Personnel Issues |
| Flood or Water Damage | Vandalism or Theft |
| Equipment Failure | Biological or Chemical Attack |
| Bomb Threat or Terrorism | Pandemic or Other Illness |
| Unwanted Intruder | |

"Two out of five companies that experience a catastrophic event or prolonged outage never resume business." Gartner Research

STAY ONLINE WITH A COREXCHANGE DISASTER RECOVERY SOLUTION

Your business must stay in operation. Our sales and technical teams help you choose a disaster recovery and data and network protection solution before a crisis occurs so that you can continue to deliver the services your customers have come to expect.

One free BCC seat reservation with PC, flat screen monitor and IP phone

Cold Site

Data center space, power and network connectivity available when you need it. Our engineering and logistical support teams get you moved in within 24 hours.

Warm Site

Hardware is installed and your bandwidth is pre-configured. When you need it, software and data is loaded, and systems are restored.

Hot Site

Flexible bandwidth pricing allows periodic software updates and data synchronization to your backup servers. Switching over is simply a matter of a few configuration changes.

CHENIERE STAYS IN FRONT OF THE FORECAST

Houston-based [Cheniere Energy](#), depends on the CoreXchange CoreAvailability business continuance solutions including office cubicles, phone system, networked PCs and dedicated network access all available in the event of a disaster.

"By partnering with CoreXchange, we were able to keep our systems up and running during Hurricane Ike. We maintained operations, product supply and the data our customers expect." Scott Abshire, VP & CIO

Cheniere's failover server infrastructure is located in the CoreXchange data center facility in the Dallas Infomart, making the quick transition to a new working location even simpler.
